

You run your business. We'll save you money.

COMMERCIAL

If you're like most companies, someone is in charge of paying your bills. Maybe that's you. Or maybe you have a purchasing department, a procurement manager, finance department or office manager. Whoever it is, their job is to review and pay the bills, hopefully catching any overcharges at the same time. So you may be thinking "why do we need Viv" or "can't we just do this ourselves"? And, sure, technically you could do what we do in-house, but the sad fact is 80% of companies are overpaying on their monthly bills. Just like you hire experts for many other areas of your business, hiring the team of experts at Viv to manage your bills is one of the smartest moves you can make and the easiest way to ensure you are never overspending again. **HERE'S WHY:**

WE ARE EXPERTS.

Paying bills and keeping track of expenses is already a big job! There's no time for your team to become an expert on every type of bill, every billing rate class, every vendor, every tariff and everything else you would need to know to be sure you're getting the best price on every service—and that you haven't overpaid in the past. That's where we come in. Our team has decades of experience reviewing, auditing and negotiating commercial bills. We know where to look, what to look for and how to protect your bottom line.

WE DO THIS A LOT.

We have the distinct advantage of learning from each and every bill that goes through our platform. We see other companies on your same vendors – what they are paying and how much you may be overpaying. We see trends. We know what fair pricing should be. The more customers we serve, the smarter our platform and team become. You benefit directly from economies of scale when you trust our team to go to work for you.

TIME IS MONEY. AND WE CAN SAVE YOU BOTH.

You have a business to run. Leave the reviewing and haggling of your monthly bills to us. We act as an extension of your team. When you trust our team to manage your bills for you, you can be certain that not only do you have experts looking out for your bottom line, but also that your team can be freed up to work on all the things that drive YOUR business. Never waste time on hold or in endless back and forth negotiations on any of your bills again. Plus, the longer you put managing your bills on the back-burner until you "have time" to get to them, the more you are overpaying, month after month.

A TAILORED APPROACH TO IMPROVING YOUR BOTTOM LINE.

Your business is unique. We'll find the right products and services to save you money—from bill negotiation to auditing to energy efficiency. All you have to do is show us your bills and we'll show you a plan for reducing your overhead and improving your bottom line.

SO HOW CAN WE HELP?

Start today with a free
cost assessment.

Let us take a look at your monthly spend and show you how you could be saving more and freeing up time. At no risk or up front cost to you. Contact us today.
